EXPERIENCE

Ladder Capital Corp. *New York, NY*

Legal & Compliance Extern | Fall 2025

- Co-developed a vector-based semantic search system for the firm's shared drive as one of two developers, replacing months of manual records organization and facilitating review of scanned paper archives.
- Authored staff-facing AI workflow guides and worked with legal and IT teams on responsible AI adoption, data governance, and cybersecurity risks.
- Researched securities regulations and SEC examination priorities; reviewed agreements, revised the Compliance Manual, and prepared written regulatory guidance.

Moving & Trucking Inc. *New York, NY*

Technology and Compliance Officer | February 2023–May 2025

- Automated storage reports and created alerts for potential UCC Article 7 warehouse-lien auctions, replacing manual monitoring.
- Developed a nearest-neighbor route planner for Nassau County election logistics, organizing 300 stops and thousands of voting machines into capacity-constrained trips; reduced planning time from days to minutes.
- Led procurement for the New York City Housing Authority (NYCHA), generating more than $1 million in revenue.
- Developed a gradient-descent regression model to estimate moving costs using distance, borough/location, cubic footage, furniture types, and item-level inventory data.

Legion Outreach (formerly Meridian Strategies) *New York, NY*

Political Consultant | December 2020–January 2023

- Developed a public-records analysis system covering NYC Comptroller contract data to identify procurement anomalies, trace contractor relationships, and support investigative research.
- Identified government contracting and spending anomalies subsequently covered by the *New York Post*, *New York Daily News*, and *THE CITY*.
- Built campaign canvassing and phone lists from voter data and identified fraudulent canvassing activity.

EDUCATION

St. John's University School of Law *Queens, NY*
